

WT: heat (39 vs 37 °C) in the KEGG collection

NES > 0 enriched in the numerator (39 °C or WT), NES < 0 in the denominator

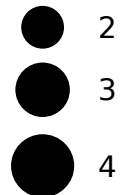

- Valine Leucine and Isoleucine Degradation
- Fatty Acid Metabolism
- ABC Transporters
- Propanoate Metabolism
- Cell Cycle
- Leishmania Infection
- Oxidative Phosphorylation
- ECM Receptor Interaction
- Parkinsons Disease
- Small Cell Lung Cancer
- Prion Diseases
- Neurotrophin Signaling Pathway
- Hypertrophic Cardiomyopathy Hcm
- Dilated Cardiomyopathy
- Cytokine Cytokine Receptor Interaction
- Peroxisome
- Regulation of Actin Cytoskeleton
- MAPK Signaling Pathway
- Pathways in Cancer
- Focal Adhesion
